

RESEARCH OR INDUSTRY? HAVE BOTH.

BRAIN CORPORATION IS HIRING SCIENTISTS

Brain Corporation is seeking neuroscientists and engineers to fill 20 full-time positions in research and modeling of visual processing and sensorimotor control. Competitive wages and stock option packages are available to early employees.

Brain Corporation studies principles of spiking computation and develops spiking models of vision and motor control. Brain Corporation partners with Qualcomm, world leader in mobile semiconductors, to enable a new generation of intelligent devices.
